Posture and Health Management				
Remote access for Users				
SWG		Subcategory	Modern SOC Platform	
SD-WAN		SIEM		
		Endpoint and EDR	Cortex	
Palo Alto Networks Network Security Platform		NTA/UEBA		
Secure users, apps, and data anywhere— on-premises, in the cloud,		SOAR	XSIAM	

Secure users, apps, and data anywhere— on-premises, in the cloud, or hybrid. Get complete Zero Trust network security to see and secure everything from your headquarters to branch offices and data centers, as well as your mobile workforce.

Cortex-the platform for the modern SOC

Attack Surface Management

Palo Alto Networks offers the industry's most comprehensive product portfolio for security operations, empowering enterprises with best-inclass detection, investigation, automation, and response capabilities.

Unit 42 Threat Intelligence and Incident Response

Unit 42 brings together world-renowned threat researchers with an elite team of incident responders and security consultants to create an intelligence-driven, response-ready organization passionate about helping customers more proactively manage cyber risk. Our consultants serve as your trusted advisors to assess and test your security controls against the right threats, transform your security strategy with a threat-informed approach, and respond to incidents in record time.

With our platform approach to securing the network, cloud, and security operations, organizations can be confident that they'll be able to protect people, applications, devices, and data simply and effectively, taking advantage of the best cybersecurity products on the market.
